Our Doors

Made using traditional methods, our bespoke single, French and bifolding doors are designed and manufactured by us to meet your specific requirements.

We couple traditional designs and methods with modern locks, draught sealing and glazing to give the best of both worlds. Over our history, we have made significant strides in the effectiveness of our French Door design, meaning they are easier than ever to operate, and look simply wonderful.

We have carried out installations of all types of doors across the South East and we always ensure that our clients are delighted with the design prior to manufacture and very pleased with the finished result.

Types of Doors

We make the following types of doors:

- Single doors
- Stable doors
- French doors
- Bifolding doors
- Front doors - *Please see our front door information page*

Timber Specifications

Standard	As standard we use utile(hardwood) for the doors, frames and glazing bars. We use meranti (hardwood) for all cills.
Optional Extra	As all of our joinery is bespoke, we can manufacture your doors from any timber you specify. Our most popular upgrades are: <ul style="list-style-type: none"> - Accoya (treated softwood) - Oak (hardwood)

Frequently Asked Questions

Will you use toughened glass in my doors?

Yes, all external doors will have toughened glass as standard.

Will my door be draught sealed?

Yes, all doors will have a compression seal fitted. It is possible that there will be some light visible through the top or bottom of doors but this will not cause any weather tightness issues.

Will you repair any damage to my walls?

When we carry out a frame replacement it is possible that some plasterwork may come loose or blow out. We are unable to predict how much this will be. If any is disrupted, we will make good internally to a pre-decorative finish. This means that we will replaster the wall but we will not repaint or re-wallpaper.

Additional Information

There are a large number of technical drawings available on our website. If you would like printed copies of these, please email info@sashwindows.london or call 0207 924 7303.

If you would like to discuss your specific requirements with our technical department, please call 0203 576 7500 and ask for the technical department.
