Door Hardware

We are specialists in designing, making and installing a range of doors that will be a perfect fit for your property. We make all our doors by hand in our workshop to your exact specification.

Choose ironmongery for your front doors, French doors and bi-fold doors to create an entrance that is perfect for your property.

The best security

Here at Wandsworth Sash Windows, we only use 3* high security cylinders on our doors. This results in complete peace of mind for the homeowner.

ERA BS Nightlatch

This ERA nightlatch meets the tough criteria laid down by insurance companies and the police. It comes with an integral cylinder pull which protects the cylinder from being drilled. The 20mm bolt throw provides added strength and security. We use a 40mm backset lock with a 22mm x 86mm keep.

Provided with three keys.

Winkhaus Automatic Multipoint Lock

Winkhaus autoLock AV4 is an slam shut multi-point locking system that when the door is closed, the security hooks are triggered by a magnetic release located in the centre keep, securing the door.

This is an alternative to a traditional slam-shut lock with the benefits of secure multi-point locking which improves security and durable alignment of the door.

Winkhaus Heritage Multipoint Lock

Winkhaus autoLock AV4 is an slam shut multi-point locking system that when the door is closed, the security hooks are triggered by a magnetic release located in the centre keep, securing the door.

The Euro cylinder has been raised to match the traditional 'night-latch' position which is common on traditionally styled doors.
